Hiddenbrooke Open Space
From: McGary Road
To: Trail’s Southern Terminus in Vallejo

Length: 2.5 miles one-way (plus 2.5-mile return to trailhead)
Elevation Gain/Loss: 530 feet/190 feet one-way
Accessibility: Hikers, equestrians, and mountain bikers

These rolling grasslands offer expansive views of San Francisco, San Pablo, and Suisun Bays and the mountains that encircle them, from Mount Tamalpais to Mount Diablo. You have short steep climbs along this exposed trail and must return to Hiddenbrooke Parkway. During summer, take this trip on cool mornings; some spots are muddy after heavy rains.

This trail description is excerpted from the 2019 Guidebook. For details on all trails, trailheads and more buy the book from Wilderness Press.

For more resources to plan your trip, visit our Trail Tools page.
